

# THE OHIO STATE UNIVERSITY

---

## GRADUATE SCHOOL

### What is SROP?

The Summer Research Opportunities Program (SROP) at Ohio State is a summer research experience designed to help historically underrepresented undergraduates explore opportunities for graduate study. Participants work with a faculty mentor within their area of study and begin to develop a collegiate-mentor relationship that is crucial to success in graduate school.

The program provides research experiences across the university to eligible students and allows for a meaningful, realistic assessment of their interest in graduate study. We promote and support the student/professor relationship which is crucial to success in graduate school and beyond. The program, offers a weekly professional development workshop and a culminating research conference where students present work to members of the university community.

### SROP Highlights

- Students conduct original research under the supervision of a faculty mentor
- Earn 2 semester credits
- Workshops on topics including research writing, financing and applying to graduate school, presenting research, and GRE preparation
- Work one-on-one with Graduate School staff to prepare graduate applications and identify potential sources for graduate funding
- Oral and written presentations of research projects
- Earn a \$3000 stipend
- Receive campus room and board

### SROP Eligibility Requirements

- Students must be at least one of the following: African-American, Native American, or Latino/Hispanic, First generation or low-income students
- Rising Junior or Senior
- Citizen or a permanent resident of the U.S.
- 3.0 or higher G.P.A.
- Interest in pursuing a Ph.D. or terminal graduate degree

### SROP Application Process

- Applications available online at <http://btaa.org/students/srop/introduction> beginning November, 1, 2016.
- Contact Ana' Brown via email at [gradrecruit@osu.edu](mailto:gradrecruit@osu.edu) to coordinate the application process.

### Application Deadline

Applications must be submitted by **February 10, 2017**.

Supplemental materials will be accepted until **March 1, 2017**.
