The Engineering Cooperative Education & Internship Program (ECIP) helps undergraduate students to obtain career-related employment of two types: cooperative education (co-op) positions and internships. A co-op experience provides an opportunity to apply what is learned in the classroom in career-related positions by alternating semesters of full-time coursework with periods of paid, full-time employment. Internship involves one work period with an employer. A work period may last for one semester or for two consecutive semesters. Summer internships are the most popular among students and employers.

Students meet with academic advising staff to evaluate different schedule arrangements before interviewing because many employers hire for specific "rotations". For instance, students may work full-time during the summer term, attend full-time classes in autumn, and return to their employer for full-time work in the spring. The most popular term to work is the summer. Last year, CBE students completed 71 co-op rotations and 94 internship or part-time work experiences (as reported by students to Engineering Career Services).

The following is a list of companies who hired OSU undergraduates in our program and the students who were hired by those companies:

**Abbott**: Andrew Bitter, Emma Curtis, Caitlyn Harrington, Paul MacDonald  
**AK Steel**: Mark Lienhardt  
**Alexion Pharmaceuticals, Inc**: Fengli Zhang  
**Anheuser-Busch**: Bryce Bridges, Noah Eckert, Carter Greene, Hanna Rosenblum, Maddie Talbert  
**Anomatic Corp**: Amanda Conlon, Carolyn Croke, Suha Malik, Jonathan McMahon, Josie Miller, Ryan Muhlenkamp, Jahnavi Murali  
**Archer Daniels Midland (ADM)**: Audrey Phipps, Ben Slaton  
**Ashland Inc**: Aaron Miller  
**AstraZeneca Pharmaceutical Company**: AJ Wahlstrom  
**Avery Dennison**: Nicole Ricker, Joseph Westover  
**BASF Corporation**: Blake Kanoy  
**Battelle Memorial Institute**: Justin Hopkins, Paul Williger  
**Bayer**: Bhavya Shah  
**Bayer Animal Health**: Kurt Atwell  
**Bayer CropScience**: Kurt Atwell  
**Braskem America**: Drew Noble, Michael Hines  
**Campbell Soup Co**: Krista Marsh, Taylor Curtis, Hannah Rettig, Josie Miller  
**Capital Resin Corp**: Josie Miller  
**Cargill**: Josh Froats, Margaret Otto, Anna Tobler, Kendall Trudick  
**Catalent Pharma Solutions**: Eric Plencner  
**Computational Material Discovery Group**: Zahra Amin  
**Continental ContiTech**: Daniel Botti
Cooper Tire & Rubber Co.: Peter Dent, Kaelyn Kouns, Ben Rudzinski
Covestro: Victoria Evankovich
Cringle: Caitlyn Hennessey
Dayton Valley Aquaponics: Margaret Otto
Diageo: Michael Sorine
Dow: Nicole Nazar
DowDuPont: Eric Glowacki, Ben Schneider
DuPont: Abram Haghazari, Allison Kreinbrink
Eastern Research Group, Inc.: Tapajyoti Ghosh
Ecolab Inc: Brooke Blodgett
Emerald Brand: Jason Zheng
Emerson: Alexandra Orkis
Ernst & Young: Thomas Menker
Ethicon: Samantha Botkin
ExxonMobil: Kyle Burrows, Emily Fox, Paul MacDonald, Shrey Mahajan
Fiat Chrysler Automobiles LLC: Talia Abedon
First Solar: Zahra Amin
Freudenberg Sealing Technologies: Claire Schroeder
GE Global Operations: Suhaas Sameera
General Electric Aviation: Alex Lutmer
General Mills: Emma Eding, Allison Staab
Glatfelter: Edward Hughes, Abigail Lyons, Nicole Ricker, Joseph Velecheck
GlaxoSmithKline: Matthew Haynam
Hexion Inc.: Max Constantine, Victoria Ehninger
Honda R&D Americas, Inc.: Matthew Galliger, Matt Wise
J.M. Smucker Co: Samara Einstein, Zachary Napholz, Amanda Slager
Jabil: Elise Sebak
L Brands: Emily Aebker
Lanzatech: Kaitlyn Yu
Leprino Foods Company: Michael McCloskey
LG Chem Power Inc.: Madi Salem
Los Alamos Technical Assoc Inc: Emma Jallaq
Lubrizol Corp: Steven Dengler, Jacob Josell, Melanie Lander
LyondellBasell: Jack Albright, Matthew Eversole, Addison Hutton, Brianne Kimmet, Brennan Muha, Chizua Onua, Nicole Ruse, Kareem Simpson, Leah Soppi
Marathon Petroleum Corp: Madi Salem, Christian Schell, Brian Veitch
MSA Safety Inc: Jason Cline
NASA-John Glenn Research Center: Robby Fehrenbach, Joyoshri Sadhukhan
Nexceris, LLC: Michael Petrecca
NiSource Inc: Victoria Evankovich
PCC Structural Inc: Samuel Reifsteck
PepsiCo: Rosy Bellamy, Julie Gemmel, Gabriella Nicolasi
pH Matter, LLC: Mary Cramer, Matthew Galliger, Joshua Goete, Joe Gruber
PharmaForce Inc: Michael Posta
Pratt & Whitney: Victoria Sipe
Proctor and Gamble: Jacob Belding
Regeneron Pharmaceuticals, Inc.: Brooke Blodgett
Rockwell Automation: Colin Fugger
RoviSys: Martin Gonzalez, Benjamin Sperl
S&C Electric Company: Naveed Ghoorkhanian
Sandvik: Charles Moritz
Schwan's Food Co: Denvir Saud
Sherwin-Williams Co: Ashley Elston
Silfex Inc: John Osburn, Anson Tran
Stanley Electric: Brian Wynne
Stepan Company: Tyler Burk
The Chemours Company: Brian Goss, Haroune Mahdi
The J.M. Smucker Company: Madison Gilger, Alison Walasinski
The Kraft Heinz Company: Lexi Fye
The Lincoln Electric Company: Jennifer Bertrand
The Shepherd Color Company: Emily Baur
The Sherwin-Williams Company: Kailee Gulbin, Sangeetha Naidu, Nick Urich, Lauren Vaccaro
TIC Gums: Kyle Burrows
US Department of Energy: Carter Leffler
USDA-Agricultural Research Service: Luke Morrical
Veolia Water North America: Corey Febo
Wink Engineering LLC: Austin Coy
William G. Lowrie Department of Chemical and Biomolecular Engineering
2018 Placement Record for Undergraduates

Graduates of our program continue to have a strong placement record both within industry and within graduate and professional programs. The percentages provided here are based on senior exit surveys at the time of graduation, therefore, this information is self-reported by the students.

Sixty-one percent of our graduates will be going directly to industry with their B.S. degrees (as reported upon graduation; many additional placements are reported within six months of graduation). About six percent of our students will be going on to graduate or professional school. Approximately 43% of our students have accepted positions in Ohio and will stay in the state to pursue their post graduation plans. Students will be working at various corporations such as Exxon Mobil, the Dow Chemical Company, Procter and Gamble, and General Mills.

A number of our graduates received Latin Honors, With Research Distinction Honors or With Honors in Engineering. Latin honors are defined as follows: a cumulative grade point average (GPA) of 3.5-3.69 is Cum Laude; 3.70-3.89 is Magna Cum Laude; and 3.90-4.00 is Summa Cum Laude.

A student who graduates “With Honors Research Distinction” is an honors student (greater than a 3.4 GPA) who has completed a senior Honors research thesis. A student who graduates “With Research Distinction” is a student (GPA between 3.0-3.39) who has completed a senior research thesis. A student who graduates “With Honors in Engineering” has completed a three-pronged program consisting of completing a required number of honors courses, participation in community service, leadership and outreach as well participation in “investigational studies” which typically includes completing a research paper or thesis or completing a minor. Fourteen graduated with Honors in Engineering and eleven students graduated with Distinction in various disciplines.

Engineering Career Services (ECS) welcomes all employers to register, to recruit Ohio State engineering students and graduates. There is no cost to register and no fees for ECS services. If you, or someone you know, is interested in hiring Ohio State students for co-op experiences, internships or for full time placement, please contact Amy Thaci, Director of Engineering Career Services at (614) 292-6651. You can read more about the services offered through ECS by visiting their webpage: http://ecs.osu.edu.

A total of 118 students were awarded undergraduate scholarships in the Chemical & Biomolecular program. The vast majority of those students were current majors, although a small amount went to recruit high ability first year students as well. A total of $344,900 was awarded to students heading into the 2018-2019 school year. The average award was $2922 this year compared to $2496 the previous year.

Trends in data from financial aid show that the number and amount of both student and parent loans have been increasing. Both Ohio State tuition and University financial support have increased yearly. However, since the increase in scholarship support hasn’t been able to keep up with tuition increases, engineering students and their families have had to increase their debt levels to cover the additional costs. In the William G. Lowrie Department of Chemical and Biomolecular Engineering, department scholarships from alumni and corporate donors help defray a small part of the loans burden for many of our students.

Department scholarships are determined mainly by need, however, when a scholarship specifies that a student’s merit be considered, both merit and need are taken into account. We thank those of our alumni who have established scholarship endowments for this purpose as well as our corporate donors who provide scholarships on an annual basis.
